

Nature is Not for Sale

Forum on Natural Commons

The UN, governments, global financial institutions and many of the biggest corporations in the world will be meeting in Edinburgh on November 21 and 22 for the first ever World Forum on Natural Capital. They'll be discussing how to put a price on nature so that it can be bought and sold as a commodity.

We believe nature's value is priceless and that fresh water, clean air, fertile soil, fish stocks and forests must be protected, not traded for profit. Join us for the World Forum on Natural Commons, a counter-event that will bring together academics, campaigners and radical thinkers from across Europe.

PHOTO EXHIBITION
and FOOD AND DRINKS
